WHO WE ARE

01

Ascend Attire Co. is a certified clothing manufacturer producing hoodies, gym wear, streetwear and headwear for brands worldwide.

We operate to professional manufacturing standards with export-quality production and full industry compliance. Pattern making, cutting, stitching, printing, embroidery and finishing all happen under one roof, so quality is checked at every stage rather than passed between vendors.

Flexible minimum order quantities mean a new label can test 50 pieces and reorder in thousands without ever changing supplier. That is the part most factories will not do, and it is the part our customers keep coming back for.
